

ART GALLERY ONLINE SHOPPING

Prepared By

1. SHRIDHAR WAKSHE
2. SANDEEP KUMAR SINGH
3. SOHEL DESHMUKH

Project Purpose

It is observed that there are not many art galleries online, traditionally we physically have to go to an art gallery to see the paintings. So we provide a better experience by providing multiple choices to buy paintings from various known artists.

This helps both owner of gallery and customer in multiple ways, the owner is benefitted as there is no physical store which reduces the setup and employee expenditure and it saves customer time and he can buy paintings at his own comfort. It gives customer better experience, he can browse many paintings within less time.

This project also helps owner to reach wider audience and which can be accessed from anywhere at the ease of fingertips by users.

Project Scope

- The main objective of the project is to provide a platform for different arts and artists where they can showcase and sale their paintings, its gives various art lovers a chance to see beautifull paintings and can buy online effortlessly by just one click . Customers dont have to go for exhibition they can online buy it anytime it saves their time also
- The primary goal of this project is to create a user friendly & easy to use web application for the various actors such as admin, customers .
